

BUTTE COUNTY AIR QUALITY MANAGEMENT DISTRICT

RULE 227 - NEW OR MODIFIED BULK PETROLEUM FACILITIES

(Adopted December 13, 1988; Recodified August 22, 2002)

- 1 NEW OR MODIFIED BULK PETROLEUM FACILITIES:** As of January 13, 1989, any new or modified bulk loading facility shall install and utilize bottom loading equipment which is 95% efficient. Bottom loading equipment shall prevent 95% by weight of the vapors from gasoline transfer at bulk facilities from being released to the atmosphere. Other equipment of equal or greater efficiency may be installed provided such equipment is approved by the Air Pollution Control Officer prior to installation.
